Product Description

35310-2B000 Fuel Injector Nozzle 353102B000

Product Description:

The **injector nozzle**, known more commonly as the **fuel injector nozzle**, is an essential part of an internal combustion engine's **fuel injection system**. Its purpose is to deliver pressurized fuel into the combustion chamber in a precise and regulated way. The injector nozzle holds a fundamental role in the engine's operation, efficiency, and emissions control.

Features:

Our injector nozzle ensures superior fuel atomization, breaking down the fuel into small particles for improved combustion efficiency. It provides precise control over the fuel flow rate, delivering the optimal amount of fuel to your engine's combustion chamber. The nozzle is architected with an optimized spray pattern and angle, improving fuel circulation and utilization. It is made with robust material, such as stainless steel and composites, granting high-resilience in demanding working conditions. Our injector nozzle also undergoes precise engineering and calibration, maximizing performance by ensuring accurate fuel delivery. Lastly, its compatibility with multiple vehicles makes it the perfect direct fit replacement, for hassle-free installation.
