25310-D3550 Car Radiator Spare Parts crafted for Automotive Excellence For Hyundai 2016 Tucson 2017 Kia Sportage

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 25310-D3550
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Warranty: 12 Months
- Name: Automobile Spare Parts
- Size: Standard
- Type: Car Radiator
- Country Of Origin: China

Product Description

Product Description:

Car Radiator - A Crucial Component of a Vehicle's Cooling System

A car radiator plays a pivotal role in regulating a vehicle's temperature by dissipating heat generated during the combustion process. This component is a crucial part of a vehicle's cooling system.

The radiator is a typical car component that consists of a series of thin metal tubes or channels known as the core. These tubes are connected to inlet and outlet tanks, which are typically made of plastic or aluminum. The core is usually constructed using aluminum, which boasts excellent heat conductivity properties.

The primary function of a car radiator is to cool the engine. It does this by transferring the heat from the coolant circulating through the engine to the surrounding air. This cooling process is achieved through a combination of conduction, convection, and radiation.

Features:

Efficient Heat Dissipation: Our Car Radiator is designed with an innovative high-density core, comprising of thin metal tubes and cooling fins. The construction maximizes the surface area, enabling efficient dissipation of the heat generated by the engine. Our Car Radiator effectively cools the coolant as it flows through the radiator, keeping your engine at the optimum operating temperature.

Durable Construction: Our radiator is built to withstand the daily demands of driving. It has a sturdy and corrosion-resistant aluminum core that provides excellent heat conductivity and durability. The inlet and outlet tanks are made from high-quality materials that ensure long-lasting performance.

Enhanced Cooling Performance: Our Car Radiator's design is optimized to maximize cooling efficiency. The arrangement of tubes, fins, and coolant flow paths provides improved cooling performance, ensuring that your engine stays safe and at a consistent temperature. It also prevents the risk of overheating and potential engine damage.

Quality Assurance: We commit to deliver reliable and high-performing Car Radiators. Our stringent quality control process incorporates thorough testing to ensure optimal cooling efficiency and durability. We use reliable materials and components, guaranteeing your satisfaction and peace of mind.

Warranty: We offer a warranty to support the quality of our Car Radiators. You can trust that your radiator is protected against any manufacturing defects or faults, giving you the confidence that we stand behind our product.

Applications:

Upgrade your vehicle's cooling system with our premium Car Radiator

Are you tired of constantly worrying about your vehicle's engine overheating? Our Car Radiator is the solution to your problems. Not only will it enhance your vehicle's cooling performance, but it will also maintain an optimal engine temperature, allowing you to drive with peace of mind.

Our Car Radiator is made from high-quality materials, ensuring that it is durable and reliable. You can trust in its efficiency to keep your engine running smoothly and to prolong the life of your vehicle. Don't settle for a subpar cooling system - upgrade to our premium Car Radiator today!

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

A large of stock

Professional export company

Accept small order

We can design anything well according to customers' requirment
